PROFILE

Student at Centennial College studying software development. Through my courses I've worked with C#, JavaScript, HTML, CSS and React, building both console applications and responsive websites. I enjoy solving problems and turning ideas into clean, user-friendly applications, and I'm looking for opportunities to grow my skills and contribute to a development team.

TECHNICAL SKILLS

C#, JavaScript, HTML, CSS, React, Git & GitHub

PROJECTS

La Maison Rouge | HTML, CSS, JavaScript, Leaflet, Canvas

- Multi-page French restaurant website with an interactive map showing routes to the restaurant and a built-in HTML5 Canvas game.
- Sole developer: designed and built all pages, the map integration and the game; used query strings, cookies and localStorage to pass and save data between pages.

Food Order Data Visualization Dashboard | HTML, CSS, JavaScript, Chart.js, OpenWeatherMap API

- Multi-page dashboard analyzing 1,898 restaurant delivery orders with linear regression charts, plus a live Toronto weather widget.
- Sole developer: cleaned the dataset (imputed missing ratings), built the charts and predictions pages, and connected the weather API.

React Personal Portfolio | React, JavaScript, CSS, Vite

- Six-page responsive portfolio website with navigation, a project showcase and a validated contact form.
- Sole developer: built the pages, reusable components and styling.

EDUCATION

Centennial College, Toronto, Ontario — 2025 – 2028

Advanced Diploma, Software Engineering Technology – Artificial Intelligence (in progress)

Sree Narayana Guru Central School, Kollam, Kerala, India — Completed 2021

High School Diploma, Science Stream

LANGUAGES

English, Malayalam, Hindi
